

PRESS RELEASE

FLEXIBLE CONNECTIVITY, FOR FLEXIBLE SCANNING

LONDON, 1st November 2019 - You want a fast, compact scanner that can be used anywhere in the office, with or without a PC. A versatile scanner that can scan plastic ID cards and passports reliably. You might be looking for our new imageFORMULA DR-S150. Our first desktop scanner with USB, wired and wireless connectivity options.

Installing a new device into your office network can be a headache. Will it fit in your office and will it work within your existing network? With USB, wireless and wired network connectivity, our new scanner can be positioned and used across various applications, environments and office teams. The large colour LCD touchscreen also offers simple easy scanning operation, letting you get back to your work more quickly. All of this in a compact, yet robust package.

FLEXIBILITY YOU CAN RELY ON

Reliable solutions are important to you, whether that is from suppliers, service providers or your hardware. That's why we are using our proven paper feeding mechanism, built around heavy duty feed and separation rollers. The scanner's automatic document feeder can handle large batches up to 60 pages and is capable of scanning a wide range of media including ultra-thin papers, plastic ID and embossed cards and even passports up to 4mm thick.

ONE TOUCH IS ALL YOU NEED

You want your scanner to get the job done with minimum hassle. With one touch scanning using preconfigured jobs, your documents are scanned accurately with optimised image quality and end up exactly where you need them to be, every time. The DR-S150 also supports sending images directly to your output destination without requiring a PC connection. The dedicated DR image processor delivers high-speed high-quality scans of up to 90 image per minutes with fewer delays, letting you get the information you need and giving you peace of mind.

Tim Brosnihan, European Product Manager, Canon Europe says "We've built the new imageFORMULA DR-S150 to be a reliable and flexible addition to your office, whether that is a home office or as shared device for small offices, and corporate office departments, or for financial branch office locations to improve workflow efficiencies in onboarding new customers. The small footprint, PUSH scan function and ability to scan passports and ID cards make it perfect for financial services in onboarding new customer. With a range of network connectivity options, whatever you need to scan, however your office is set up, the flexible imageFORMULA DR-S150 delivers quick, high quality scanning. Letting you get on with your business."

About Canon Europe

Canon Europe is the EMEA strategic headquarters of Canon Inc., a global provider of imaging technologies and services. Canon Europe has operations in roughly 120 countries, with approximately 18,000 employees and contributes to around a quarter of Canon's global revenues annually.

Founded in 1937, the desire to continuously innovate has kept Canon at the forefront of imaging excellence throughout its 80-year history and has commitments to invest in the right areas and capture growth opportunities. From cameras to commercial printers, and business consultancy to healthcare technologies, Canon enriches lives and businesses through imaging innovation.

Canon's corporate philosophy is Kyosei – 'living and working together for the common good'. In EMEA, Canon Europe pursues sustainable business growth, focusing on reducing its own environmental impact and supporting customers to reduce theirs using Canon's products, solutions and services.
